Villa is a surprisingly large property which spans four floors.

This delightful space feels more like a boutique hotel than a villa and offers over 1000 square metres to enjoy. As soon as you enter the building you will see the main circular staircase with a dome ceiling and appreciate the cool, muted tones of the decor. Its four bedrooms offer another touch of the French chateau with large beds, plenty of space and long windows which look out onto the courtyards or the pool. The master and the second bedroom each have their own walk in wardrobes.

There is a further bedroom on the second level between ground and the first floor, and a fourth downstairs in the property's basement which can even be accessed separately, ideal for a family with staff who want their own quarters.

There are two lounges, an ample kitchen and plenty of bathrooms which follow the stylish French old-world style.

You will be able to destress at the end of a busy day and emerge totally renewed! The property also boasts a pretty 78m2 pool surrounded by well-tended greenery, which further enhances that feeling of escapism.

Even though parking can be hard to find on The Golden Mile, you will not have to worry at Villa.

There are spaces for three cars inside the garage and three more on the driveways.
